

## ► Mobile Road System

### ■ MRS Heavy

#### ► Properties

The **MRS - heavy** ground protection panels are screwed together, creating a permanently connected driveway or work platform for heavy loads in both length and width loads and vehicles are created. The load-bearing capacity of the subsurface is significantly optimized.

**Material:** polyethylene, high molecular weight

**Dimensions:** 3000 x 2000 x 45,5 mm (incl. Profile)

**Weight per panel:** approx 221 kg

**Surface / Colour:** 5,0 & 2,5 mm profile / black-coloured

**Load capacity:** approx 160 t

(depending on the ground conditions)

**Transport per truck:** 100 units (600 m<sup>2</sup>)

- Lower transportation costs with **MRS - heavy** panels. They are easier to transport than most alternative road mats for temporary use.
